UI/UX Designer. Lagos, Nigeria

Work Experience

UX Designer - Guarantee Trust Bank (GTBank); Feb 2018 to Present

• Currently working to give our customer's the best banking experience; one that scales across platforms and products.
• Responsible for:
- New Product Development
- A/B Testing
- Prototyping
- User Interface Development
- Usability
- Research
• UX research and UI design of the new GTPay on-boarding merchant dashboard (Work-in-progress).

Team Lead , UI/UX Designer - The GIG Group (GIGM.com); July 2016 to Feb 2018

• My day-to-day is analysing data from experiments and identifying our guest's problem. Furthermore, I come up with hypotheses that are close to solving these problems, bounce ideas around the team, and prototype ideas. The best part of my day is running experiments with A/B Testing. Another best part of my day coding the prototypes with markup web language.
• User Interface Designer for both Mobile and Web platform.
• Develop reusable and mobile responsive views using cutting-edge Front-end technologies.
• Responsible for creating a simple-to-use user-interface design for GIGM.com driver's app on Android.
• Responsible for Developing high level and detailed user stories, mockups, and prototypes to effectively communicate design ideas for GIGM.com android and IOS apps.
• Responsible for developing web pages using HTML5, CSS3, Javascript, Flexbox, SCSS and React.js
• Design manuals and usage guidelines for our brand.
• Worked on cross browser compatibility issues and fixed the bugs.
• Designed User-friendly interfaces for web and mobile views using Sketch app, Figma and Invisionapp.

UI/UX Designer - Seamfix; January 2015 to June 2016

• Created prototype HTML5 based mobile site.
• Experienced in all phases of UI/UX implementation of a Search web application including Design, Prototyping, and Development and Testing phases.
• Worked through cross browser compatibility issues with layout and styles for all new CSS that was implemented.
• Used Bootstrap front-end framework for faster and easier web development.
• Used LESS and SASS for UI framework.
• Implemented JavaScript source code and embedded nested event handling logic using JQuery event handlers and call back functions.

Front-end Developer and User Interface Designer (Consultant) - Deefrent Limited; September 2013 to 2015

• Understand each and every module and gathered and managed the project content by using Content Management System (CMS)
• Implemented User Requirement Specification, Communicate with Business Analysts to resolve ambiguity in Requirements & document.
• Developed Responsive web pages using HTML5, CSS3, JavaScript libraries and Bootstrap.
• Worked on Front-end projects by using JavaScript.
• Experience in UX design with a strong background working in Wireframes (low fidelity and high fidelity) Prototypes, Mockups, Storyboard and User Flows.
